

Attachment & Trauma-Focused Therapy

80-Hour Online Certification Program

ATTACH is excited to offer this 80-hour training online via Zoom: June 10–12 and June 18–19

40 Hours: Independent Distance Learning

In this initial phase, participants are expected to complete the set of required readings and watch the videos provided by the instructor.

40 Hours: Intensive Learning via Zoom

Days 1–3, Online Instruction

The second phase includes online instruction in the areas of attachment, regulation, trauma, maltreatment, and grief, as well as the brain development inherent in these factors. Theory, research, model programs, techniques for intervention, transference, and counter-transference will be explored

Days 4–5, Online Practicum

Emphasis on therapy skill development in which participants will incorporate attachment and trauma work into their practice models. Roleplays and case approaches will be discussed through practice with classic cases (ones representative of typical cases coming into a practice). Additional practice information will be supplied as it relates to classic cases.

Participants must have a Doctorate or Master's in psychology, social work, or other license in the mental health field.

Mary-Jo Land, Registered Psychotherapist

Mary-Jo Land is a Registered Psychotherapist in private practice in southern Ontario. She specializes in facilitating attachment and resolving trauma in children. She works in the adoption, child welfare, and war-affected communities. Mary-Jo writes and teaches extensively. Her free video series on attachment, trauma, and parenting can be found at maryjoland.ca/when-we-are-very-young.

Craig Clark, MA, LMFT

Craig is a licensed Marriage, Family Therapist with private practice offices in Capitola and Santa Clara, California. He is the founder and director of Attachment Center of Monterey Bay, an organization providing counseling, consultation, training, and community-based intervention programs which serve to divert youth from residential treatment facilities.

Training Outcomes

1. Provide hands-on training by National Certification Program.
2. Eligible for one year ATTACH Registered Clinician Membership, which includes:
 - certificate of completion
 - listing on our website
 - referrals to your practice
 - other ATTACH benefits

Become competent in treating critically underserved populations with this intensive certification.
