October 1-27, 2020 | Online Tuesdays and Thursdays

REGISTER HERE FOR EARLY SAVINGS - ENDS AUGUST 16

<https://attach.regfox.com/attach-2020-virtual>

PARENT SCHOLARSHIPS AVAILABLE

Please join ATTACH and some of the world's leading experts in the fields of trauma and attachment for a virtual international conference, Interconnections. We are excited to offer information and education for ALL parents and caregivers on the latest research, cutting-edge approaches to understanding trauma, and the impact trauma can have on individuals, families, and communities.

This year's conference focuses on Interconnections and offers information on:

- how some factors such as a child's age, the family's culture or even ethnicity may influence how the family copes and recovers from a traumatic event.
- innovative tools and compassionate supportive strategies for a parent helping a child cope with attachment and trauma issues.
- how to regain some control and find relief from the challenges and stress associated with helping a child living with attachment and traumatic experiences.
- methods to improve connections between parents, their children and their families.

This Year's Format

Rather than cramming the robust learning opportunities into one busy week, this year, ATTACH is hosting multiple activities over several days throughout October. The conference offers parents and families:

- Parent Social
- Parent Debriefing Session
- Giveaways & Gift Cards
- Network anytime with Other Parents
- Virtual Exhibit Hall
